#### **About**

A hard worker proactive mechanical engineer with an upbeat attitude, looking for an opportunity to make a big difference in my professional life that is moving forward. aspiring to work a professional experience and technical knowledge which will formulate strategic planning and opportunities that can yield successful professional life growth within your organization thereby enhancing bright and long-term career development prospects.

#### **Education**

- Graduated with a Bachelor's Degree in Mechanical Engineering from Assiut University, Faculty of Engineering, acquiring deep knowledge and practical skills in design and engineering analysis
   GPA(2.2)
- Higher National Diploma in Mechanical Engineering at Arab Academy for Science, Technology & Maritime Transport "Technical Vocational Institute", accredited by Pearson BTEC, Current

GPA (3.8) |2016 - 2018.

#### **Professional skills**

- Dealing with hydraulic & pneumatic systems.
- Firefighting
- Plumping
- HVAC
- Dealing with PD& dynamic plumps
- Prototype design.
- Classic control
- Automotive diagnosis.
- Electronics
- Research and development (R&D)
- Materials Research.
- Materials engineering
- Using measurement tools.
- Dealing with PLC. (Programable logic control)
- Dealing with electrical & electronics.
- Dealing with CNC machines.

#### Personal skills

- Time management.
- Creative spirit.
- Organized.
- Team player.
- Fast learner.
- Motivated.
- Good at negotiating.
- Good at communicating.
- Good at presentation skills.
- Good at public speaking.
- Analytical Skills
- Project Management
- Adaptability
- Curiosity and Continuous Learning
- Ethical Standards

#### Software skills

- Microsoft Office (COLLECTION)
- SOLIDWORKS
- AUTOCAD
- AUTOCAD Mechanical
- ANSYS
- MATLAB
- CorelDRAW
- Python

- Ultimaker Cura
- Fusion 360
- Simulink
- C++
- C
- LogixPro
- RoboDK
- LabVIEW
- Autodesk ART CAM
- GRAB Controller

#### **Personal projects**

- Water tank level control system using ultrasonic sensor and controlled gate valve.
- Ever Egypt's electric car responsible for Steering System design & implementation
- Human-powered vehicle Responsible for Chassis Design & implementation
- Formula student competition internal compaction Engen vehicle responsible for Steering System design & implementation
- **Shell eco marathon** electric car Responsible for Hydraulic brakes Design & implementation
- Integrated elevator project
- **CNC lathe machine** responsible for mechanical components selection & implementation
- Brushless motor driver (**BLDC**) for Quadcopter
- Designed and implemented PID (Proportional-Integral-Derivative) controller to DC-Motor
- Designed and implemented an embedded system project using an ATmega16 microcontroller to control a smart lock for a lab.
- Performed comprehensive kinematic calculations for a six-degree-offreedom industrial robot, with all movements being rotational.
- Designed and implemented hydraulic positive displacement pump –
   reciprocating pump that we use for pump concrete .

#### **Working Esperance**

- Working as a mechanical technician at Ahmos for Contracting and Trading Company constriction and instillation 90 axial centrifugal Pumps for a fish farms project in Ismailia city. | 2020-2021
- Working as a mechanical engineer MEP in (Makaa & ALALAMIA company) To renovate and develop Firefighting and HVAC and Plumping Sednaoui Hospital for Health Insurance, Al Gomhouria Clinic in Ramses Cairo Egypt |2022-2024
- Working as a mechanical engineer MEP in (Makaa & ALALAMIA company) To renovate and develop Firefighting and HVAC and Plumping at Nasser Comprehensive Clinic for Health Insurance in Ramses Cairo Egypt |2022-2024

#### **CNC-lathe machine**

Responsible for "mechanical design in the project and

Installation of all the mechanical parts

our project is talking about the conversion of a traditional lathe into a Semi-Automatic CNC lathe machine to improve the flexibility and the accuracy of a traditional lathe machine it will also reduce the costs and time to be more efficient to help owners of small workshops in developing and rearranging their workshops with minimized cost and maximized possible.
